Work Experience

SommarDesignKontoret - Halmstad, June 2008 - Aug 2008

The SommarDesignKontoret is part of SVID (Swedish Industrial Design Foundation). I was a member of the Halmstad design office with seven other students. The office worked with companies and regional organisations within the food industry.

Simon J Kelly + Partners Architects, Nov 2005 - Sept 2007

Simon J Kelly + Partners is an architectural practice in the West of Ireland. My role within the company was Design Technician. My responsibilities included, furniture design, 3D visualizations, model-making and the design of marketing publications.

Portwest Clothing Ltd, Ireland May 1998 - Nov 2005

A large company in Westport that manufactures utility and sporting clothing. I worked as a product designer for a new range of Personal Protection Equipment. This entails sourcing, pricing of the product as well as designing product packaging for the retail market.

StrukturDesign, Sweden March – June 2005

Struktur Design is an award winning product design consultancy in Umeå, Sweden. I completed a 3 month internship with this company. I took part in the conceptual stage of a new project to design a “walker” for elderly people.

J.J Rhatigan Construction Ltd, Ireland May 2004 - March 2005

General Operative for a construction company which included operating excavator equipment, pneumatic equipment, mobile crane, carpentry and site maintenance.

Milupa Baby Products December 2003 - June 2004

This was a project to design a baby feeding seat for 6-18 month old children. It was part of my degree project and consisted of market, ergonomic and manufacturing research, conceptualizing, development, full presentation and a working full-sized model.
